

SPD Environmental Summit II

Military Programs

Steve Miller

SPD Environmental Team Leader

South Pacific Division

PURPOSE OF THE SPD ENVIRONMENTAL SUMMIT II

To continue the **dialog**...

I don't know how
to turn off the lights
AI. I'm a chemical
engineer!

PURPOSE (cont.)

...and develop the **synergy** that started at the first
“SPD Environmental Summit”

YOU GUYS
sing
“YMCA”!

PRIMARY AREAS TO BE COVERED

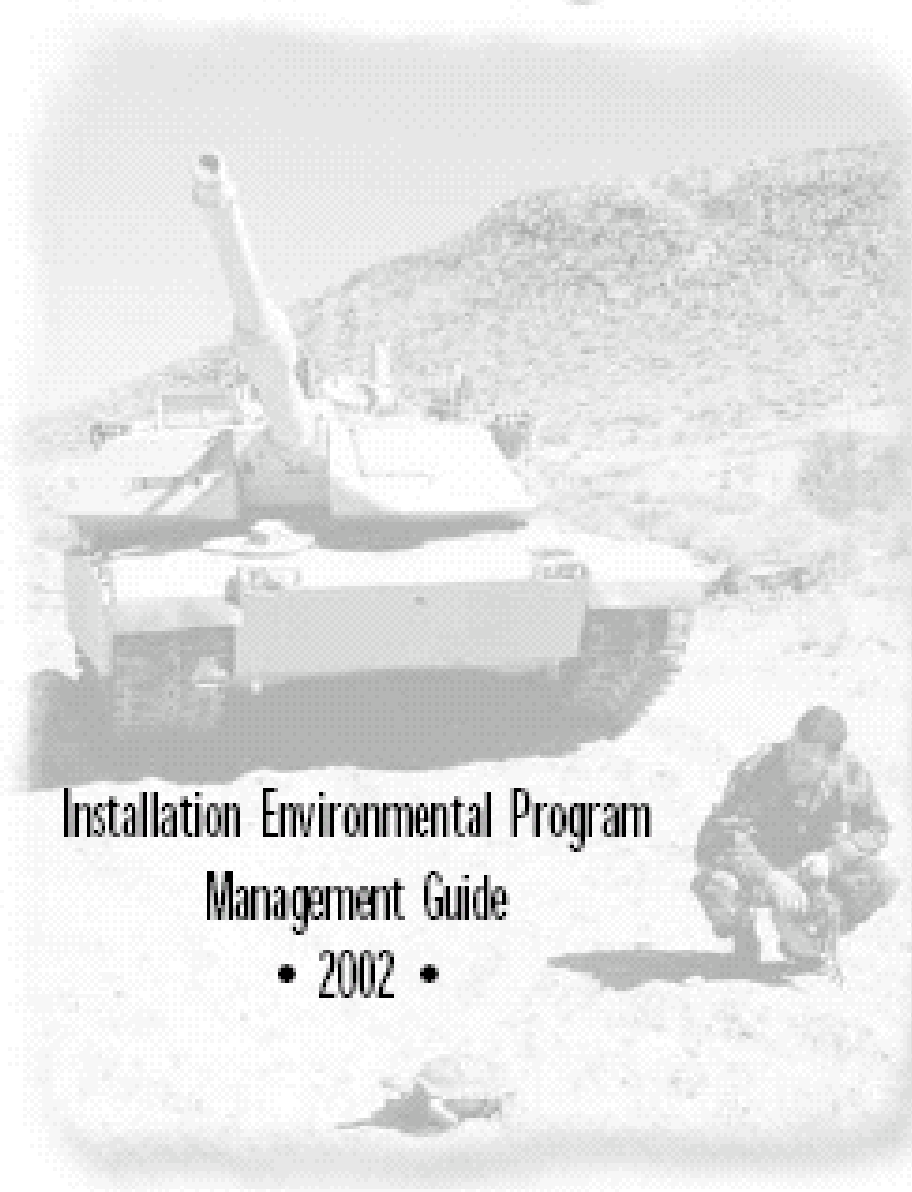

- Civil Works (Robin Mooney)
- Military Programs
- Topics of common interest
- Need to get Regulatory and Natural Resources folks here next time

WHAT'S SO DIFFERENT ABOUT OUR PROGRAMS?

- Not as much as you think
- Main differences are:
 - Structure at HQ
 - Speed

WHAT'S THE SAME?

- MP has an *ENVIRONMENTAL* program not just HTRW
- Some districts have same people doing both CW and MP
- MP reimbursable work for installations covers:
 - National Environmental Policy Act – EA's and EIS's
 - Clean Water Act
 - Clean Air Act
 - Endangered Species Act
 - Cultural and historic issues
 - Many other environmental issues common to the rest of the Corps

pdf](http://aec.army.mil/usaec/publications/iepmguide02.pdf)

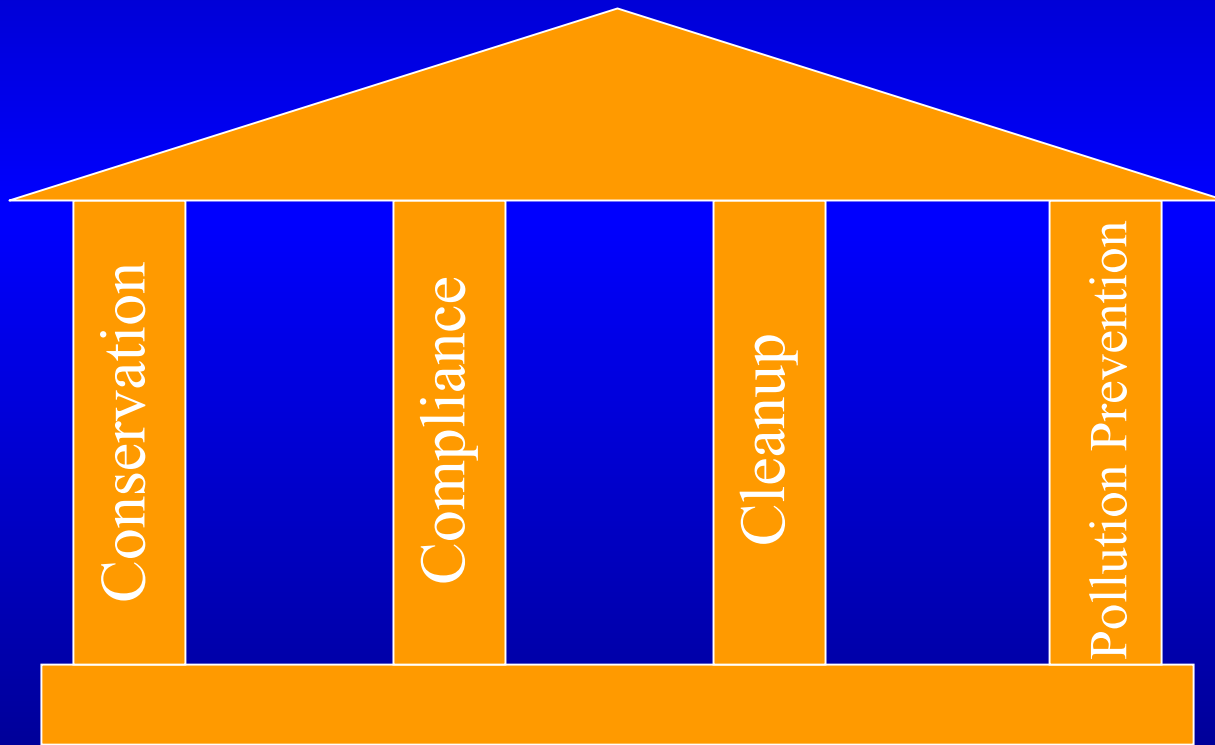

HISTORY

- **Pre-1980's...** Corps supported “birds and bunnies” issues at installations
- **After RCRA hazardous waste amendments...**
 - Big bucks available
 - Corps structure built to support cleanup
 - Structure most visible at HQ
 - Reimbursable support continued but invisible at HQ

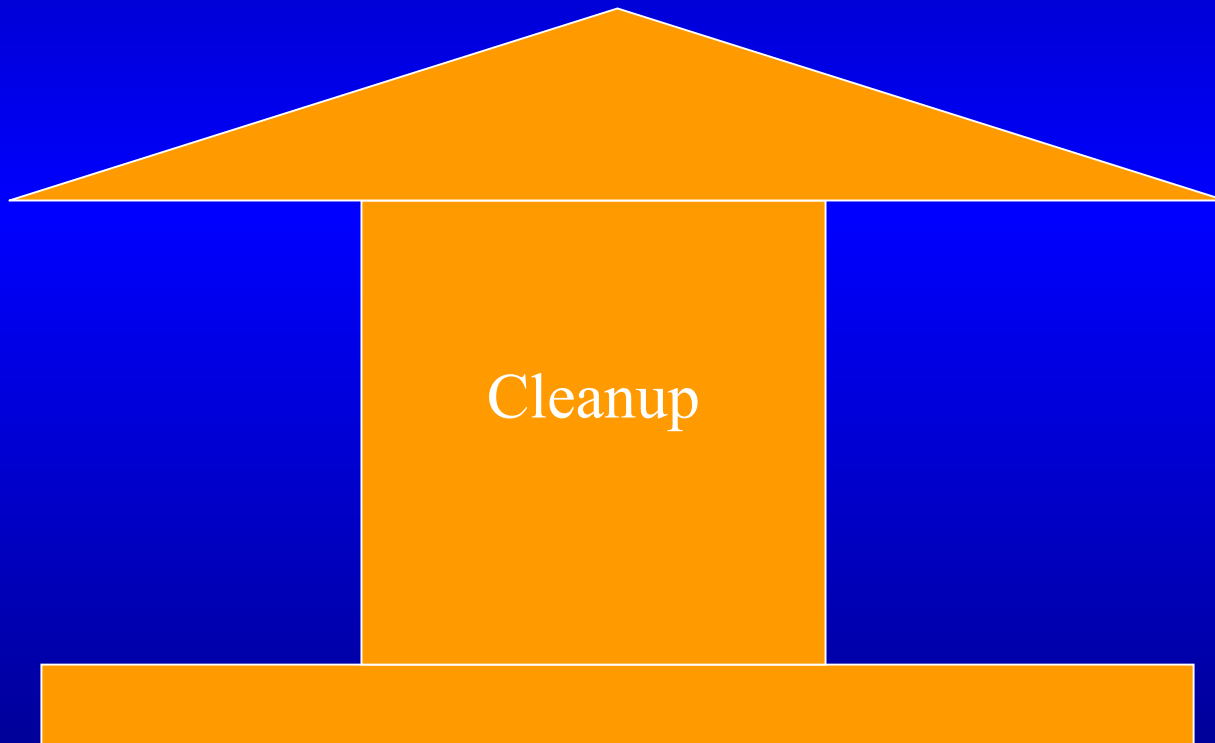

HISTORY (cont.)

- **1995**
 - Tracking system developed for reimbursable environmental work
 - Size of program rivaled HTRW
 - Name of HQ Division changed to Environmental Division
 - HQ recognized Army Environmental Program had 4 pillars...not one
- **Now...**need to recognize that at Division

ARMY ENV. STRATEGY IS...

ARMY ENV. STRATEGY IS **NOT**...

FUTURE

- One man's view...

One Corps – One Environmental Program

- USACE 2012 says get leaner or get gone
- A grab for any raft in a stormy sea?
- Build on our strengths – use all appropriate resources for all projects
- Become one Environmental Team
